

Preface

Dear readers of the Hacettepe Journal of Biology and Chemistry,

It is a great pleasure to greet our readers with our new face, which represent dynamism and continuing growth of our Journal. We had a record number of submissions from different national universities and foreign universities and we published 4 issues in 2010.

This volume is composed of 13 papers which present some of the leading techniques of biology and chemistry authored by a distinguished group of scientists. We would like to acknowledge the support of readers, authors and referees that makes the publication of this journal possible.

With these words I welcome you to the 1st issue of the year 2011 and I would like to invite you to submit your next manuscript to Hacettepe Journal of Biology and Chemistry.

Adil Denizli, PhD

Editor
